Tossing Salmon for Student Stewardship

March 7th @ 6:30pm

Tune in as we get swept up in the important nutrients that salmon bring to our local watersheds and how students are taking on stewardship roles to protect the Nisqually River. Davy Clark, Program Director at Nisqually River Education Project will share about the ways they work to provide students service learning projects that inspire stewardship of the Nisqually River and beyond. If you're interested in how the next generation is tossing salmon aside for a true sense of stewardship this is a talk you don't want to miss!
